Reviews

Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

(Pasquale Larkin I)

SCIENCE MYTHS WE TELL OURSELVES

Outskirts Press, United States, 2015. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.The author debunks many science concepts like the Big Bang, Instant Creation, Continental Drift, and Spreading Sea Floors, which are shown to be really just myths. A Big Bang explosion would require an escape velocity for galaxies of 1,000,000,000,000,000,000,000,000 times the speed of light. But more damaging to mankind is the myth that energy cannot be created in nature or by man. Few people know that Helmholtz's Energy Conservation Law was rejected as metaphysics in 1847 by the Berlin Physics Society, but that gullible scientists have accepted it anyway. So the extra energy from Low-Mass Electrons is wrongly attributed to mythical lattice vibrations, yet it had generated electric power a century ago and could be used to avert climate change. The unappreciated creation of energy in nature is shown by Larmor's 1897 formula for photon radiation from moving charges. All orbiting electrons and spinning protons continually create photons, which possess heat and mass, and they can split into electrons and positrons to provide the building blocks of matter in stars. Larmor heat photons replace the myth of fusion energy as the source of all heat in stars, and Larmor heat photons make planets interiors gaseous. Ultimately, a buildup of non-fusible iron at the core of a mature star cools and shrinks to separate the core from an expanding hydrogen envelope of a red giant star. This leaves a new planet to add to Dark Matter, and its Larmor energy becomes Dark Energy. The myths of Continental Drift and Spreading Sea Floors are replaced with an origin of Earth as a piece torn from Jupiter's Great Red Spot by a planetary collision. Pieces of Jupiter...
