Brand New Book ***** Print on Demand *****.Excerpt from *Class Book of Economic Entomology: With Special Reference to the Economic Insects of the Northern United States and Canada* All teachers are agreed that the best results in the classroom are secured only by the adoption of the best pedagogical methods, with ready access to the necessary specimens and literature. Just what these methods comprise, however, is, with many teachers, a matter of opinion. Quot homines tot sententiaB, nevertheless the indulgent reader may concede that an experience of over twenty years as a teacher of economic entomology in agricultural colleges may warrant the voicing of the authors conviction that instruction in this subject should consist of (i) studies on the structure, metamorphosis, and bionomics of insects, carried on both in the laboratory and in the field;(2) practice in the classification and description of the more common insects in their various stages; and(3) studies of the methods of control, with practical exercises in the preparation and application of insecticides. Although several most excellent manuals on Economic Entomology have been published in recent years, there seems to be a need for a book providing the necessary information for the student in the classroom, laboratory and field along the lines indicated above. This class-book, therefore, has been prepared to meet the needs of the classroom instructor, and his needs have influenced the mode of presentation of the subject material. It does not presume to take the place of the invaluable and well-known works of Folsom, Comstock, Slingerland and Crosby, and others; but rather, it aims to present such material as will best help the student in acquiring a fair working knowledge of the modern science of Economic Entomology....
