## Java Essentials for C and C++ Programmers

By Barry Boone

Pearson Education (US), United States, 1996. Paperback. Book Condition: New. 231 x 187 mm. Language: English . Brand New Book. As an experienced programmer, you're used to having to keep on the leading edge of software development just to survive in a competitive marketplace. That's why you want to learn Java, the next hot language and platform-independent development environment. And you need to learn it fast. Java Essentials for C and C++ Programmers propels you into the stratosphere of bleeding edge programmers who are already coding in Java. You'll master Java in the most efficient way possible, by building on the programming knowledge you already have in C and C++. You'll learn the ways in which Java is strikingly similar to these two languages, such as implementing behavior for operators and control flow and in the ways it differs completely, such as garbage collection, threads, and exceptions. Most importantly you'll see how to use this knowledge quickly and effectively to design your own Java applications, including Java applets for the Web. You'll discover the power and the perils of coding in Java, including: \*using Java's class libraries and methods \*managing memory - or not \*using objects instead of unions and pointers \*getting by without Goto statements \*accessing...
