Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

SUSTAINABLE FOOD FOR THE GLOBE.: ONE SQUARE FOOT AT A TIME

Createspace, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Sustainable Food for the Globe, One Square Foot at a Time came about in the strangest way. In August of 2012, there were two news items that caught my attention. The first was a challenge made by a group calling themselves The B Team. The statement was made that business as usual is currently not working, nor taking care of the needs of the people in our planet. The challenge - that now is the time to modify our mindsets and take a look at what each individual can change to bring about a stronger, richer and more abundant Global community. Secondly, during that same time period, there were lots of comments made by so-called experts, stating that the world would run out of food by the year 2050. What a paradox, on the one hand, a group of invigorated people ready to take a challenge and create a better world; and on the other hand nay-sayers stating that humankind would expire in less than 37 years due to mass starvation. As a gardener, both news items drew my attention. First, as someone who enjoys working with the earth, I am in awe of how a small seed put in a little bit of earth; tended to, making sure it has sun and water, can come out of the ground as a seedling and within a short period of time becomes a food-producing plant. So I started doing research on these two issues. What I found out about the nay-sayers group made me very angry and what I found out about the group making the challenge made me very hopeful. Thinking about these two issues made me search...
