SILICON AND THE STATE: FRENCH INNOVATION POLICY IN THE INTERNET AGE

Brookings Institution. Paperback. Book Condition: new. BRAND NEW, Silicon and the State: French Innovation Policy in the Internet Age, Gunnar Trumbull, In the early 1990s, French officials viewed with some concern the emerging and innovative high-technology sectors of the U.S. and British marketplace. Fearful of falling too far behind, the French government implemented a vast array of policies --from tax incentives for investing in risky high-tech start-ups to new standards for electronic signatures --designed to promote the commercialization of new economy technologies in France. The efforts have turned French innovation policy on its head. Traditional government and bank-financed research and development were replaced by private venture capital. Professionals in France's technical elite --long accustomed to a secure career track in prestigious laboratories and industrial conglomerates --began moving into risky entrepreneurial ventures. This short stretch of time proved a crucible for French leaders and businesspeople: it saw dramatic efforts at regulatory reform; a boom in technology start-ups, venture capital, and initial public offerings; the spread of the Internet; and then a collapse in the Internet market, accompanied by a broader economic decline. The new challenges of the ICT revolution were confronted, and new policies and practices were tested and stressed. The author describes France's new technology policy as both boldly new and familiarly French....
